

CITOFONARE PIMOFF 23/24

Residencies Programme for Contemporary Dance

INTRODUCTION

Pim Spazio Scenico cultural association, based at PimOff Theatre in Milan, launches the 9th edition of the open call Citofonare PimOff, its residency programme in support of national and international choreographic research.

This programme reflects the vision that the association has grown over the years, by an accurate observation of the creative context within it operates. PimOff acts as collector and booster for emergent artists.

Initially designed as an open call addressed to every sector of the performing arts, year after year Citofonare PimOff has defined its focus on dance, which, in the contemporary Italian context, tends to be more neglected than other performative arts. However, traces of its original form remain, as well as those of the diversified activity of Pim Spazio Scenico association; these traces reflect in a broad concept of dance, a perspective that considers hybridization between knowledges and arts as an indispensable resource for reporting the complexity of our time.

THE OPEN CALL

Citofonare PimOff supports dance projects at their creation phase that have never debuted and have never been presented in front of a public in their final form.

PimOff will provide to all selected artists a creative residency, up to a maximum of two weeks long, from February to May 2024. The exact length and all arrangements for the development of the residency will be discussed by the organizational office of PimOff with the company, and will depend on the nature of the proposed project and its stage of progress.

Whatever the stage of development of the project is, at the end of the residency, all companies/artists are asked to present the project to the public, whether it be in form of preview or studio; and to lead a training or laboratory activity open to the public.

PimOff will provide:

- Rehearsal studio (schedule to be agreed).
- Accommodation (open space for a maximum four people, with kitchen).
- Financial support **up to 3000 €.**
- Technical counselling.
- Organisation, promotion and communication support.
- Production of video and photographic material, in collaboration with the Course of photo, video and new media of Fondazione Accademia Teatro alla Scala.

All A1 documents or any certificate of applicable legislation, international agreements etc. are at the expense of the company/artist and its relative documentation will be presented at the moment of the signing of the contract.

Please note that PimOff is headed by Pim Spazio Scenico cultural association, which is not a production institution and therefore it won't take part in the project as producer or co-producer.
